

How Load Nord Libraries

- Please check you have the latest OS installed on your Nord Keyboard and the latest “ Nord Sound Manager version “
<https://www.nordkeyboards.com/software-tools/nord-sound-manager>

Connect your Nord in to your computer and launch the Nord Sound Manager.

- Open the Nord Sound Manager
- Drag and drop the samples or programs (if present) you want to install in your “Program ” partition
- Drag a sample file from the hard drive to an empty location in the list of Sample Instruments in the Samp Lib tab.

- Drag Program to program
